Sumitomo Mitsui Construction Co., Ltd. (SMCC) is a global construction company dealing with all constructions, Civil engineering, architectural works and industrial plant construction.

The commitment to human well being is deeply embedded in our culture and we managed a fully integrated approach to Quality, Environment, and Occupational Health & Safety Management System. We ensure that for every project awarded to us, we provide our expertise in ensuring its successful delivery. SMCC has established its high standards in compliance to quality and safety requirements of our clients. Thus, they have engaged SMCC to become their Civil & Structural & Architectural Contractor repeatedly for over many years now.

Our choice of vendors also hinges on the pillars of Quality, Safety and timely deliveries and performers complying with our standards become a part of our fraternity in all our future endeavors. Very recently we engaged the services of VGI Power Systems Pvt Ltd, promoting DuctSox fabric ducts and HVLS fans, for air dispersion, in India.

The dedication, technical support, adherence to safety and quality and observance of our tight timelines by the entire team of VGI Power Systems Pvt Ltd during the entire currency of the project at HCIL, was commendable and we have no hesitation in considering this company's role in our future projects.

We wish them success in all their future endeavors.

Best Regards

(T.SUGIMOTO)
