

**TO WHOMSOEVER IT MAY CONCERN**

**FORBES MARSHALL, as part of its expansion plan, decided to set up a Greenfield Manufacturing facility at Chakan.**

**Being a Mega Project and one of its kind Architecture, selection of right vendors and Latest New concepts was one of the critical factor.**

**We are glad to say that, for the Forced Ventilation of the Manufacturing plant, we took the right step, by selecting M/S DuctSox VGI of New Delhi to provide fabric ducts for dispersion of air. This is a comparatively newer technology for Air dispersion in our country, and replaces the conventional metal ducting.**

**A detailed study was conducted before finalizing, and VGI Power and their principles' DuctSox USA were very co-operative in clarifying all the points raised.**

**Design, supply and Installation, Testing and Performance warranty were all provided by Duct SOX VGI, and we are very glad to comment that we have taken the right decision. Product has performed to our utmost satisfaction.**

**VGI Power has been very professional and competent in their work. The kind of support provided by the whole team, led by Mr. Gurmeet Singh, is well appreciated. The Quality of work meets the expectations put in by us, FORBES MARSHALL, and timely completion is well appreciated.**

**While the onus was on the core performance, we during the course of the Project had strict laid down norms on Safety requirements, and had written down procedures. It is with the cooperation and efforts of all the Vendors/contractors that we could achieve more than 2 Million Safe man hours without any reportable incident.**

**We, FORBES MARSHALL Team, appreciate and recognize the immense contribution of Duct Sox, VGI in making this project successful, and have full confidence in their capabilities and organization.**

**We have no hesitation in recommending them for all industrial and challenging projects, and shall be glad to see them grow further.**

**Wishing the Duct Sox, VGI team "ALL THE BEST" FOR THE FUTURE.**

**Best Regards,**

**(SHISHIR JOSHI)**
