

Dear Mr. Sharma ,

GSK is a globally recognized company dealing with manufacture of Food products and excels in quality control, productivity and providing ambient working conditions to the employees.

The commitment to human well being is deeply embedded in our culture and we managed a fully integrated approach to Quality, Environment, and Occupational Health & Safety Management System.

Our choice of vendors revolves around Quality, Safety and timely deliveries and performers complying with our standards become a part of our fraternity in all our future endeavors. Very recently we engaged the services of VGI Power Systems Pvt Ltd, providing DuctSox fabric ducts for air dispersion, at our facility in Nabha, Punjab.

The dedication, technical support, adherence to safety and quality and observance of our tight timelines by the entire team of VGI Power Systems Pvt Ltd during the entire currency of the project at GSK, was commendable and we have no hesitation in considering this company's role in our future projects.

We wish them success in all their future endeavors.

**Regards**
